PUBLIC NOTICE

Accidental diesel spill on the grounds of the Montreal Heart Institute

The Montreal Heart Institute would like to inform you that an accidental diesel spill was discovered on January 24, 2012 underneath the Institute parking lot. An action plan to correct the situation was immediately implemented in collaboration with the appropriate authorities. Based on available data and sampling performed by Montréal's fire department, the public health experts involved assure us that there is no risk to the health of patients, staff or the neighbouring population.

The Montreal Heart Institute apologizes for any inconvenience that this incident may have caused and confirms that every effort is being made to mitigate the impact of this spill.

Rest assured that your health and well-being remain our priority.

For any questions about the smell of diesel in the area, please contact the Ville de Montréal's service line at 311, and a city employee will help you with your questions.

Thank you for your understanding.

The Administration of the Montreal Heart Institute
