Hello,

Because cardiovascular disease is the leading cause of death worldwide. Because the Montreal Heart Institute Foundation treats over 50,000 patients a year from the four corners of Quebec, and because its mission is critical.

Because I want to support a good cause. Because the more runners we are, the more funds we'll raise for the Foundation.

Email Message:

 Hello,

 On Aug 23, 2018 8:00 AM, I'll be taking part in the Color Run Montréal event as part of [Cours pour le Coeur](#).

Why am I running and raising funds for the Montreal Heart Institute Foundation?

 Because cardiovascular disease is the leading cause of death worldwide and because healthcare is important to me.

Why am I appealing to your generosity?

 Because your donation is invaluable and your support enables the Institute to care for tens of thousands of patients every year:

- through prevention;
- through ultra-specialized care;
- by training professionals;
- through research.

Note: You can also import your emails from your contacts, to do so, click on the address book icon (see #2 in image above). This step will allow you to select emails from your personal address book (Gmail, Yahoo, Outlook-MSN-Widows Live, Aol, Outlook and Plaxo).
