**E- Targeted variant(s) testing only** Required for family member

<b>Specific Variant(s) :</b>	Gene	Transcript	Nucleic Change	Protein Change
For variant(s) not reported by our laboratory, please attach a copy of a family member's report.	_____	_____	_____	_____
	_____	_____	_____	_____

**F- Cardiac Panel Test (Please check all that apply)**

**Required for proband**

Please note that sequential analyzes are performed. If no clinically significant variant is identified within the first-line analysis, the second and third-line panels will automatically be completed.

Inherited cardiomyopathies	Genes

**G- Health Care Professional Information :**

**Required**

I confirm that this test is medically indicated for the stated clinical condition and that the results will be used for clinical purposes for the patient. I have explained to the patient or his / her representative / legal guardian the indicated genetic analysis and its objectives, limitations, risks and benefits and have satisfactorily answered all related questions.
